Subject: New RadTown is LIVE!!!

I am excited to announce that today we launched an update to our [RadTown educational website](#)!!!! It was a solid two year effort led by our RadTown team, Marisa Thornton, Lauren Matakas, Angela Shogren and Stefanie Bacon. They couldn't have done it without support from the rest of the Division. Your technical expertise was critical to this launch (and we apologize if the nagging to review content was ever too intense). Thank you!

Check out RadTown at its new home,
www.epa.gov/radtown.

RadTown now has:

- New graphics (Thank you, Lauren);
- Five new fact sheets and complete reviews of existing fact sheets;
- Updated pictures to illustrate concepts; and
- New layouts for our classroom materials.

Please join me in congratulating the team on their successful completion of this project!

Jess

Subject: RE: images of casks
Attachments: LM_Transporting Radioactive Materials-Formatted.docx; LM_Airport Scanning-Formatted.docx; LM_Wireless Technology-Formatted.docx; LM_EMF from Power Lines-Formatted.docx

Attached all of them—the one that you want to revise is the EMF from Power Lines, but the other three are the final copies from Friday

Thanks for the update Chris,

Unfortunately, today is my last day in the office before deploying to Edison, NJ for hurricane response work. I won't be back in the office until 1/29. Having said that, Lauren has volunteered to work with you to finalize your three fact sheets (thanks Lauren!!)

So that everyone can be on the same page, attached are the track changes version of documents I sent to Chris for review. Chris, feel free to loop Lauren in if you've made additional edits.

Thanks everyone!
Stefanie

Subject: Sorry - Need to move the Radtown Date again...

Hi Stefanie –

I had something come up and need to take leave for Monday the 8th; can we try again on the Radtown fact sheet for Wednesday the 10th?

Sorry for moving this again.

Have a great day.
